OBJECTIVE	Passionate Web Developer with an eye for design and love of problem solving, seeks to find entry level or internship opportunity.
SUMMARY OF QUALIFICATIONS	Collaborated with students to design a restaurant finder app using Yelp API, by implementing ajax and manipulating the DOM with javascript. Recently, I created, designed and deployed a FriendFinder app to heroku that lets users submit a survey that then matches them with the most compatible friend. I used Node.js and express.js to build the server and debugged it using Chrome's developer tools. I am currently enrolled in UCSD Extension Coding Bootcamp for Full-Stack web development and will be finishing in early August.
COMPUTER SKILLS	HTML, CSS, Javascript, Git, GitHub, Chrome Debugger Node.js, Express.js, MySQL
